Description

Wooden spiral staircase model.
Add dimension to your study space with the Authentic Models Spiral Stairs.
A favourite with the Houseologists, we love the elegant curve of this wooden spiral staircase model.
Inspired by the artist models of Renaissance architects, it is a familiar replica which has been created over the decades to help architects understand dimensional perspectives.
Crafted by hand, it is finished with an authentic French polished finish to achieve a distinctive antique aesthetic.
A lovely display item of interest for classic and contemporary spaces; it will combine wonderfully with accenting additions from the Authentic Models collection for a layered look of old world style.
Artisan crafted with meticulous care by skilled craftsmen, each item is unique and slight variations in appearance are to be expected and celebrated as no two items are exactly alike.
