Description

Enamelled metal funnel shaped pendant lamp.
Illuminate your interior in true designer style with the Gubi Semi Pendant. Gorgeously sculpted like two quarter circles joined together - hence the name 'Semi' - the lamp was originally designed in 1967 by Danish architects Claus Bonderup and Torsten Thorup.
Now an internationally renowned design icon, the Gubi Semi Pendant became world-famous for its curved enamelled metal design after winning the prestigious industrial competition at the Royal Danish Academy of Fine Arts School of Architecture.
Sculptural and graceful in form, with iconic industrial appeal, today this lamp hangs beautifully in both private homes and public spaces and is available in a range of colours and sizes.
Completed with a fabric flex and complementing ceiling rose, this iconic lamp will look perfect in any interior space where it will elevate your interior in true designer style.
Light source: Requires 1x E27 60W Max (bulb not included)
