Description

Polished metal ring-shaped pendant light with 30 opal glass diffusers. Created by award-winning interior designer, Lee Broom, the Carousel Pendant Light draws inspiration from the nostalgic merry-go-rounds of a traditional British fairground. Circular in shape, it is skilfully sculpted from a choice of gunmetal and brass finishes, containing 30 captivating cylinder light fittings. Housing 30 LED light bulbs, each section works in harmony to create a playful ring of radiant light. Designed to work as a striking stand-alone piece or hung together to create a dramatic focal point, the design is complete by four flexible steel wires and a clear flex. Broom started his career in fashion working with legendary designer Vivienne Westwood. Celebrated by architects and design aficionados the world over, he now holds the UK's highest accolade for trade success, holding the prestigious Queen's Award for Enterprise. Light source: Supplied with 30 x E27 LED fittings 1.2w/long life/90 lm/2700 k/warm white Cable length: 2m clear cable Weight: 10kg Approx. Please note: Professional installation recommended.
