Description

Walnut veneer armchair with cream upholstery and cushion. Accent your timelessly stylish interior space with the Eichholtz Rubautelli Chair – Walnut.

Designed by luxury homeware icons, Eichholtz, it is sculpted by skilled furniture artisans from warm walnut veneer with a natural finish.

A perfect addition to complete your living area or comfortable occasional chair in the bedroom, it is inspired by the materials and fluid forms of mid-century design with its elegantly curved low-level frame.

Sumptuously soft and comfortable, this decadent delight is finished with chic cream upholstery which will accent any colour palette in your style-conscious interior scheme.

Please note: Due to the artisan production process and materials used, each chair is distinctively unique with no two chairs exactly alike; so this a characterful addition for the heart of your interior space.
