### Description

Contemporary plastic shell dining chair with oak legs.

Strike the style balance with the contemporary appeal of the Normann Copenhagen Form Chair - Oak.

Created by Simon Legald, the purpose of Form was to redesign the traditional shell chair with a more unified design.

The moulded plastic seat and frame of oak join as one using a unique cup system.

Industrial and natural elements meet elegantly, exuding the high quality craftsmanship that Normann Copenhagen are renowned for.

Contoured in shape, the Form shell seat is ergonomically designed to ensure a comfortable seating experience.

Created with precision and meticulous attention to detail, Form will introduce soft and welcoming interior beauty with its modern-meets-minimalist expression.

This product does not require any self assembly.
