Description

Gold finished side table with black glass top & marble base. Celebrate the retro glamour of the Eichholtz Alister Side Table. Inspired by the iconic contours of 1970s interior design, this exquisite addition is the perfect companion for your sofa in your style-conscious living space. Featuring a polished stainless steel frame with a gold finish, it is formed from 10 free-flowing welded hoops, steadied in place by a black marble base and smoked black glass tabletop. Accent with other metallic additions from the Houseology collection to complete the look in style. Please note: Due to the artisan production process and materials used, no two items are exactly alike, making this a unique addition for the heart of your interior scheme.
