Description

Contemporary oak bar stool.
Channel contemporary style at your breakfast bar with the Georg Bar Stool High.
Sculpted from responsibly sourced oak by skilled artisans, the bar stool frame is held in place by a sleek leather strap in the characteristic expression of the Georg series.
The frame of the barstool is steadied by stabilising metal in an H-shaped construction, which also makes a comfortable foot rest.
Created by Skagerak, it is the epitome of Scandinavian style with an expression of uplifting Japanese minimalism.
