### Description

Floating glass globe & brushed brass diffused light table lamp.

Celebrating the relationship between form and balance, the Flos IC T1 High Table Lamp is delightfully decadent with a minimalist expression. Hand-blown by skilled artisans it features an opal glass sphere diffuser which appears to float in mid-air, elegantly suspended by an angular rod base - available in a choice of finishes.

Delivering a soft lighting distribution, it will complement both classic and contemporary interiors alike with its timeless style.

Designed by Michael Anastassiades, IC was first inspired by a street entertainer juggling a set of spinning spheres, the IC Lights collection responds to the moment in the air when the spheres suddenly appear to look perfectly still.

Please note: This lamp is for indoor use only.

Light source: 1x 60 W E14 Max HSGS light bulb (bulb not included)

Dimmable: Dimmer on power cord

Globe: 20cm globe.

Weight: Approx 1.7 kg
