### Description

Floating glass globe diffused light table lamp with angular base. Strike the style chord between form and balance with the Flos IC T1 Low Table Lamp.

Delicately formed with a minimalist expression, this iconic lamp is designed by Michael Anastassiades, exclusively for designer lighting icons, Flos.

Hand-blown by skilled artisans it features an opal glass sphere diffuser which appears to float in mid-air, cleverly elevated by a low-level angular base - available in a choice of finishes.

Achieving a soft lighting distribution, IC was first inspired by a street entertainer juggling a set of spinning spheres - responding to the moment in the air when the spheres suddenly appear to look perfectly still.

Please note: This lamp is for indoor use only.

Light source: 1x 60 W E14 Max HSGS light bulb (bulb not included)

Dimmable: Dimmer on power cord

Globe: 20cm globe

Weight: Approx 1.6 kg
