Description

Sandblasted glass diffuser table lamp with spun metal base.

An exploration of simplicity, the Flos Spun T1 Table Lamp is a welcome addition for your minimalist interior scheme.

Offering a diffused lighting solution, it offers a gentle ambience, which will work wonderfully on your bedside table or to create layered ambience in your living room interior scheme.

Sculpted from spun die cast aluminium, the shade includes a sandblasted glass diffuser to create a contrast between the inner and exterior surface of the lamp, ensuring the diffused light is completely anti-glare.

Mix and match with other elements of the Flos designer lighting collection to elevate your interior scheme into the style stakes.

Designer: Susan Wong (2003)

Light source: 1x 105W Max E27 HSGS light bulb (light bulb included)

Dimmable: Dimmer switch on cord.
