

## Gubi Adnet Rectangular Mirror Tan

Equestrian inspired rectangular mirror with tan leather frame.

GU0182

Colour : Brown

Material : Leather with brass rivets frame and mirror glass

### Description

Equestrian inspired rectangular mirror with tan leather frame. Reflect the beauty of your design scheme with the Gubi Adnet Rectangular Mirror Tan.

Created by Danish design house, Gubi, this equestrian inspired mirror is ideal for channelling chic, heritage style into the heart of your interior space.

Originally designed in 1920s Paris in a circular configuration, this rectangular version of Jacques Adnet's iconic designer mirror is the epitome of luxury that is guaranteed to never go out of style.

Released in 1950, the rectangular mirror features a natural tanned leather frame with oxidised brass rivet studs.

The sturdy rounded corners allow the mirror to be leaned against your wall or hung in your desired location.

Create a style synergy by layering with other Gubi designer lighting and furnishings to complete your timeless aesthetic in style.
