### Description

Industrial concrete standing floor lamp by Andrew Martin. Raw and industrial, the Judd Standing Floor Lamp is a commanding addition for your contemporary interior space. Sculpted using a lightweight concrete mould, the light features two vintage style Edison light fittings which are steadied by a gas canister shaped solid base. Perfect for creating an alluring atmosphere in your interior space, the concrete will combine wonderfully with warmer copper and metallic finishes. Accent with designer furniture from the Andrew Martin collection to set the style tone in the heart of your interior space. Please note: Requires 2x E27 Screw Fix 75 Watt Max light bulbs (not included).
