Description

Metallic polypropylene dining chair designed by Philippe Starck. Inject iconic interior style into your interior space with the Kartell Masters Chair Metallic.

Paying homage to three design icons - the Eiffel Chair by Charles Eames, the Series 7 by Arne Jacobsen and the Tulip Armchair by Eero Saarinen, the styles of each chair are fused into a sculptural hybrid design by contemporary product designer, Philippe Starck.

Moulded from strong, yet lightweight polypropylene, this stunning dining chair has been adorned in a modern chrome finish.

Practical as well as stylish, each chair can be stacked up to 4 chairs high and is suitable for indoor and outdoor use.

Combine with accenting designer lighting from the Kartell collection for a unique celebration of timeless Italian.

Please note: It is recommended when the chairs are not in use (if being used for outdoor use) that they are sheltered indoors to maintain the sleek metallic aesthetic of each chair.
