Material : Metal & Velvet

Description

Antique inspired Porter style chair from Eichholtz, available in a choice of metal finishes.

The Eichholtz Bora Bora Chair exudes luxury and timeless sophistication.

Designed by the experts at Eichholtz this designer occasional chair is a modern interpretation of 18th century porter's chairs.

With a high back and sides, the chair is inspired by antique French 'guérite' chairs used by some of the highest nobility of 18th century France.

Sculpted as a metal cage in a canopied formation, this iconic furniture piece is essentially a winged chair with a velvet quilted button black seat pad and elegant sloping curves, then, an extra dome quarter transcends above which creates an opulent sanctuary and dynamic focal point in your chosen space.

Accent with antique inspired additions from Houseology's curated Eichholtz luxury homeware collection to complete the look in style. Please note: Due to the artisan production process and materials used, no two items are exactly alike, making this a unique addition for your style-conscious space.
