### Description

Abstract patterned rug with gentle grey and brown tones.

Stir your style senses with the timeless beauty of the Nourison Twilight Rug Hazel.

Rectangular in shape, this distinctive designer rug is luxuriously woven from a soft wool and long-lasting Luxelle fibre blend.

Hand finished, washed and loom woven, the rug features an atmospheric abstract pattern with a ripple-like effect.

Shades of hazel brown combine with dove grey and speckled ecru to create a shimmering focal point in the heart of your interior scheme.

Complete your aesthetic with designer furniture and metallic designer lighting from the Houseology Luxe collection for an interior look that exudes the restrained opulence of Parisian apartment interiors.

Please note: Each rug is handmade to order with no two rugs exactly alike as the pattern is joyfully unique every time.
