Description

Natural bamboo bistro table by Lene Bjerre for indoor/outdoor use. Bring the beauty of nature indoors or extend your interior style outside with the Lene Bjerre Mandisa Bistro Indoor/Outdoor Table. Round in shape, Mandisa is a charming alternative to its dark wood and metal counterparts, crafted entirely from characterful bamboo canes. Providing the perfect resting place for brunch with friends, Mandisa will combine in harmony with complementing Lene Bjerre additions to make your space really stand out from the style crowd. Please note: Due to the natural materials used, no two Mandisa bistro tables are exactly alike, making this a unique style statement for your home interior. Outdoor use: We recommend to shelter indoors when not in use to protect the chic aesthetic from adverse weather conditions and hard winters.
