Material : Black Mahogany or Natural Teak

### Description

Two seater outdoor sofa with wooden legs and flat rope finish. A contemporary interpretation of an outdoor classic, Knit draws inspiration from Scandic furniture design and the relaxed appeal of Italian outdoor spaces.

Featuring a clean line design, Knit comprises a curving solid wood frame - available in a choice of wood finishes.

A central rod support strengthens the seat base as angular legs and comfortable arms take the style spotlight with a nod to the elegant curves of Mid Century Modern design.

Complete with a charcoal grey flat rope synthetic weave finish, combine with accenting Knit furniture from the Ethimo outdoor furniture collection to complete your aesthetic in style.

Please note:

The teak/Stromboli mahogany wood features a protective weather-resistant coating.

The synthetic flat rope fabric is weather and UV resistant.

Natural teak weathers naturally over time to create a unique silver patina effect.

Have peace of mind when the elements strike and protect with an Ethimo Rain Cover (sold separately) - contact our customer service team for more information.

Approximate net product weight: 20kg
