Description

Mid Century style grey flat rope woven outdoor armchair.
The Ethimo Knit Lounge High Back Armchair is the perfect antidote for your style-conscious outdoor space.

A minimalist interpretation of an outdoor classic, Knit takes inspiration from Scandinavian simplicity and the relaxed elegance of Italian outdoor spaces.

With a nod to Mid Century Modernism, Knit features a tall, curving back rest which really stands out from the style crowd, woven from a synthetic dark grey flat rope weave.

Robust, yet with a light appearance, the chair is complete with a strengthened wood frame and refined armrests and base - available in a choice of finishes.

Combine with accenting additions from the Houseology Ethimo Knit collection to complete your al fresco aesthetic in style.

Please note:

The teak/Stromboli mahogany wood features a protective weather resistant coating.

The synthetic flat rope fabric is weather and UV resistant.

Natural teak weathers naturally over time to create a unique effect - uphold its chic aesthetic by covering with an Ethimo rain cover (not included) between uses.

Have peace of mind when the elements strike and protect with an Ethimo Rain Cover (sold separately) - contact our customer service team for more information.

Approximate net product weight: 15kg
