Description

Contemporary outdoor round coffee table in a choice of wooden finishes. Enjoy sharing time outdoors with the Ethimo Knit Round Coffee Table. Contemporary yet classic, Knit draws inspiration from Scandinavian design and relaxed Italian outdoor spaces.

Circular in shape, this wooden coffee table is available in a choice of uplifting wooden finishes.

With a slatted wood appearance, the look is complete with a refined tripod spindle base.

Accent with Knit designer furniture from the Ethimo outdoor collection to complete your aesthetic in style.

Please note:

The Stromboli mahogany/natural teak finishes used feature a protective weather resistant coating.

Natural teak and mahogany naturally weathers over time to create a unique effect.

During adverse weather conditions we recommend sheltering indoors or combine with the Ethimo Rain Cover (sold separately via our customer service team) for complete peace of mind.

Store furniture indoors during hard winters and extreme adverse weather conditions.

Approximate net product weight: 3kg
