### Description

Aluminium outdoor dining armchair in choice of neutral colours. Impress your dinner guests and entertain al fresco with the Italian elegance of the Ethimo Ocean Dining Armchair. Inspired by the minimalist qualities of Scandinavian design and the relaxed glamour of Italian outdoor spaces, Ocean is the perfect addition for classic and contemporary settings. Skilfully crafted from rust-resistant aluminium, Ocean is made to last and coated in an epoxy neutral powder coated finish, allowing you to introduce a gentle wave of colour to your outdoor space. Comfortable with an ergonomic design, this luxury outdoor dining chair features a slatted seat and back rest with curved detailing and a seam-free aesthetic. Tapered chair legs and comfortably curving handles complete the design, ready to combine with an Ethimo outdoor dining table to complete the look in style. Please note: We recommend sheltering indoors during adverse weather conditions to maintain the crisp appearance of the powder coated painted metal. Solvent-free, this product is 99% recyclable. Please note: Cushion pad not included (sold separately)
