Description

Synthetic fibre rope and aluminium frame outdoor coffee table with white-marble top.

Extend your discerning interior style outdoors with the Varaschin Babylon Coffee Table Hemp - White Marble.

Designed by Giopato & Coombes exclusively for Italian outdoor living specialists, Varaschin, this designer coffee table is the perfect modern outdoor furniture addition for your al fresco design scheme.

Square in shape, it is steadied by a robust, rust-resistant aluminium frame which forms a flat x-shaped base.

Contemporary yet with organic appeal, the look is accented with a hemp synthetic fibre rope trim and luxurious white marble table top.

Accent with complementing contemporary garden furniture from the Houseology Varaschin collection to complete your exterior space in style.

Features:

Marble: Due to the natural veins and characteristics of marble, no two table tops are exactly alike making this a unique statement for your outdoor space.

Weave: The synthetic fibre rope is protected against UV rays and water.

Base: Grey polyester feet protect your flooring from scratches below.

Frame: The aluminium frame is complete with a varnished coating making it dependably rust-resistant.

Aesthetic Care: We advise during hard winters to store in a dry place to prevent condensation and to shelter during adverse weather conditions.
