Description

Woody essential oil candle within a petrol-effect glass container and lid. Channel an uplifting ambience in your interior design scheme with the Tom Dixon Oil Candle Glass Large.

Inspired by the ethereal beauty of the wings of a dragon fly, this enchanting glass scented candle is the perfect addition for your style-conscious interior space.

A lustrous, metallic collection, each essential oil scented candle is set within an alluring glass vessel container and lid with a lustrous melted effect.

Similar to the effect of petrol dropping into water, the tones of indigo blue and purple combine together to create a surface exterior ideal for interior intensity.

Atmospheric with an exquisite aroma, the candle has a burn time of up to 60 hours and will create a restful woody aroma in the heart of your interior scheme.

Scent Notes:

Top - Cypress Heart - Guaiacwood Essential Oil Base - Styrax

Key Ingredients: Guaiacwood Essential Oil, Pine Tar and Cypress Oil for a smoky wood aroma and Cedarwood and Styrax for a leathery effect.

Burn Time: Up to 60 hours

Please note: Due to the unique handmade appearance of the petroleum aesthetic container, each candle is distinctively unique every time.
