### Description

Grey central outdoor sofa module with pickled teak frame.

Create the perfect backdrop for al fresco entertaining with the Ethimo Costes Central Sofa Module.

Specifically designed to combine with accenting Ethimo Costes outdoor furniture modules, this stylish furniture component provides endless al fresco configurations.

Developed to last generations with its timeless expression, Costes takes design inspiration from the relaxed aesthetic of Italian outdoor spaces. Celebrating a minimalist clean line design, Costes central features a pickled teak construction, accented in style by luxurious nature grey outdoor upholstery.

Place Costes armrest modules at either side to create a luxurious outdoor sofa, perfect for basking in the glorious summer sun.

Pickled Teak: The teak is brushed and painted grey to create a lived-in aesthetic. Over time, the pickled teak ages further and develops an inviting silver patina effect.

The upholstery is made of a breathable showerproof synthetic fibre blend. Store indoors when not in use.

This sofa module is weather-resistant. Store furniture indoors during extreme adverse weather conditions, hard winters and high winds.

Ethimo sell waterproof rain covers separately via our customer service team for added peace of mind.

Approximate net product weight: 19kg
