Description

65cm barstool with plastic shell seat and black painted steel legs.
Celebrate cocktail hour in style with the Gubi 3D Stool - Centre Base - 65cm.

Designed by Komplot design – exclusively for Gubi – this 75cm tall bar stool is created using a moulding technique made from a HiRek plastic, three-dimensional veneer.

Available in a choice of muted colourways, the 3F set is designed to promote unrivalled comfort without the need for upholstery.

Practical, lightweight yet enduringly stylish, the curved seat is elevated in style by a graceful A-shape steel legged frame with a black painted finish.

Combine with complementing Gubi furniture & lighting to impress your guests in style.

Please note: This barstool is non-stackable and is made to order. It can also be produced with an alternative sled base option - please contact our customer service team for more information.
