Colour : Grey
Material : Composite Stone

Description

Rectangular gas burning outdoor fire pit.

Enjoy partying outdoors all year round with the Happy Cocooning Rectangular Fire Pit.

The perfect accent for al fresco entertaining, this stylish gas burning fire pit is rectangular in shape, sculpted from concrete-effect composite stone.

Powered by a cleverly concealed stainless steel burner, the fire pit celebrates a rustic-meets-modern aesthetic, complete with lava locks and ceramic wood-effect logs.

Enjoying an impressive 19.5kW heat output, the flames can be safely controlled with the flame height control panel.

Accent with contemporary outdoor garden furniture from the Houseology Outdoors collection to really extend your interior style outdoors.

Features:

- Available in a choice of black or grey colourways
- Stainless Steel Gas Burner
- CE approved 250cm rubber gas hose included
- Complete with set of 4 logs and lava stones
- RVS panel with Bakelite knob to control flame height
- Propane/butane gas compatible
- Protective PVC weatherproof cover included
- Weatherproof exterior however we do advise sheltering indoors when not in use.

Gas Heat Source:

- Needs gas canister (not included) or mains supply connection
- Compatible with butane (28-30 mBar) or propane (37mBar)
- RVS gas burner 19.5 kW (65,000 BTUH)

SAFETY FIRST:

Happy Cocooning gas regulator is provided to connect the fire pit to gas canister.

If you would prefer to connect your fire pit to mains gas - please contact our customer service team for a Happy Cocooning Mains To Gas Conversion Kit (sold separately). If connecting to mains gas, professional installation will be required to install the conversion kit and the installer will require the Happy Cocooning Installation Safety Manual (included) to complete installation.

Please note: The gas bottle does not store beneath the fire pit, however a gas bottle tank enclosure is sold separately.

Approx. weight: 45kg
