### Description

Round marble wall light with brass crowned light bulb.  
Create a striking illumination with the Tom Dixon Stone Wall Light. Inspired by the natural beauty of marble, this striking light fitting is round in shape with a circular wall rose. Semi-translucent, the milled marble exterior appears to orbit in mid-air, steadied together with clear glass. Complete with a brass inlay and accenting brass crowned LED light bulb, the wall light nods to the striking silhouettes of the Art Deco era. The white marble then encourages an inviting illumination once lit. Grace in your entrance hallway and combine with complementing designer lighting from the Houseology Tom Dixon collection to complete your aesthetic in style. Brass crowned 5W LED light bulb included. Please note: Marble features natural veins which are completely unique every time making no two wall lamps exactly alike. This product is suitable for indoor dry areas only.
