### Description

Charcoal faux vellum tray top side table with satin brass finish base. Channel the restrained glamour of the Art Deco era into the heart of your design scheme with the Andrew Martin Edith Side Table. A celebration of unexpected materials, this eclectic interior addition belongs to the Andrew Martin collection of Edith side, coffee and console tables.

Exuding understated elegance, the rectangular table top features an inviting charcoal faux vellum calf skin appearance.

A tray table top with recess handles, the look is then accented by an exquisite yet equally sturdy metal frame construction with satin brass finish and handle accents.

Grace by your bedside for a touch of boutique hotel glamour or place in your lounge interior with a metallic table lamp from the Houseology designer lighting collection to complete your aesthetic in style.

Please note: Due to the artisan production process and materials used, each item features a unique appearance with no two tables exactly alike.
