Description

Oval shaped contemporary mirror by Deknudt.
Elevate the style tempo in your Luxe design scheme with the Deknudt Saturn Oval Mirror.
Inspired by the planetary ring system which orbit around Saturn, this stylish designer mirror is the perfect injection of metallic modernity for your home interior scheme.
Plain in form yet with a designer decadence, this stunning oval mirror exudes the knowledge and expert craftsmanship that Deknudt are renowned for.
Consisting of two reflective mirrored rings, one incline offsets the other to interrupt and enhance the reflection of the flat central mirror inside.
The edges of each frame feature a polished finish which promote a gentle dimension in both the inner and outer sides of the mirror rings.
The reverse is supported by a strong PU backing, wrapped in black satin, completing the design in style.
This mirror can be hung either horizontally or vertically.
Weight: 16kg (approx.)
