Description

Art Deco shell chair with deep turquoise velvet finish and brass legs. Add a touch of vintage nostalgia to your home with the Eichholtz Trapezium Chair.

Art Deco shell chair with deep turquoise velvet finish and brass legs. Inspired by retro cinema seats of the Art Deco era, this 1920s style chair is the perfect injection of glamour for your hallway or lounge.

A wonderful occasional chair, Trapezium is exquisitely shaped with a quilted shell seat silhouette.

Exuding restrained opulence, the chair is then upholstered with a Cameron Deep Turquoise upholstery and contrasting angular brass legs. Complement with designer furniture and lighting from the Houseology Eichholtz collection for a layered ambience of designer style.

Please note: Due to the bespoke, handmade nature of this product, each chair is distinctively unique every time with no two exactly alike.
