Description

Solid oak bar stool with leather and oak veneer seat, available in a choice of finishes.

Inject Scandic style into your entertaining space with the NORR11 NY11 Bar Chair High 75cm Leather Seat.

Updated for the modern home, this designer bar stool takes classic style cues from the Modernist chairs found in 20th century Danish school classrooms.

Durable with a functional design, this minimalist upholstered bar stool features a premium leather and oak veneer seat pad with solid oak wood frame.

Created in a choice of natural and stained finishes, NY11 celebrates a unified Scandinavian style statement which will complement both classic and contemporary dining tables beautifully.

Combine in harmony with a designer dining table from the Houseology NORR11 collection for a layered ambience of designer style.

Aesthetic Note: Due to the natural production process used, each item is distinctively unique every time with no two stools exactly alike.
