Description

Contemporary solid oak frame ottoman with quilted wool upholstery and natural wax finish.

Rest your feet in style after a hard day on the go with the NORR11 Mammoth Ottoman Fluffy Wool.

Handcrafted with a solid oak frame, this inviting addition takes inspiration from the traditional carpentry techniques of Danish furniture design.

A timeless additional seating option, the clean line aesthetic is supported by an oak veneer seat and back which nestles a comforting quilted cushion upholstery.

Available in a choice of contemporary colourways, the ottoman's wool upholstery provides a welcoming contrast to the natural oak wood.

Lightweight yet sturdy and robust, this designer ottoman will combine in harmony with a Mammoth Chair from the Houseology NORR11 collection for a layered aesthetic of classic-meets-contemporary style.

Please note: Due to the artisan production process and materials used, each ottoman is distinctively unique every time with no two exactly alike.
