Description

LED spotlight polished stainless steel and clear glass chandelier. Choose the Eichholtz Summit Chandelier for the ultimate in interior enchantment.

Inspired by the grandeur of antique banquet chandeliers, this luxury Eichholtz chandelier exudes timeless appeal.

Rectangular in shape with a distinctive polished stainless steel construction, the lamp nestles 12 exquisite glass hurricane lanterns inside.

Graduating in size and accented by two sculptural cross-rod suspension arms, the illumination appears as glowing candle light from a distance. Look closer and each hurricane nestles an LED lamp holder inside (bulbs not included) which can be set in different positions using the ambience remote control (included).

Grace above your dining table and combine with complementing Eichholtz furniture from the Houseology Eichholtz collection for a fine fusion of designer style.

Light source: 12x E14 5W Max LED light bulbs (light bulbs are not included)

Suspension: Polished stainless steel chain 150cm

Net Product Weight: 25kg

Includes remote control to dim the lights and set different lighting positions to get the ambience just right.
