Description

Teak reclining garden deck chair.

Invite the rustic modernity of the Ethimo Cruise Deck Chair into your outdoor space.

Inspired by classic designer deck chairs, this luxury garden furniture addition has been updated by Ethimo to channel relaxed Italian style into the heart of your outdoor space.

A reclining chaise for lazy afternoons in the summer sunshine, the chair can be easily folded away when not in use - good news for our unpredictable weather!

Sculpted from hard wearing teak wood each piece channels a "literary charm" into modern settings as brass detailing gives the design an irresistibly vintage feel.

Use alone or group together with other additions from the Houseology Ethimo luxury garden furniture collection to bring an instant colour rush to your outdoor living space.

Aesthetic note: Available in a choice of natural and pickled finishes, this luxury deck chair will develop a unique patina effect as it ages over time.

Outdoor use: Weather resistant and treated against the elements, we recommend sheltering this product when not in use to protect its luxury aesthetic for many summer's to come.

Created using natural materials, each deck chair is distinctively unique every time with no two exactly the same.

Mattress pictured is not included.

Approximate net product weight: 16kg
