Material : Teak & Fabric

### Description

Slatted teak outdoor lounge chair with foam-filled cushions and Sunbrella fabric upholstery.

Drawing its inspiration from the picturesque town of Skanor, the Skanor Lounge Chair Teak exudes timeless Scandinavian appeal.

Featuring a strong slatted frame, the Skanor outdoor lounge chair is characterised by its sustainable A-grade teak wood construction.

Plump, padded cushion seat, side and back pads in a Sunbrella fabric upholstery then bring an unrivalled comfort to this luxury garden furniture piece - presented in a choice of uplifting colourways.

Channel your interior style outdoors by creating a cohesive outdoor living arrangement using luxury outdoor sofa and lounge garden furniture additions from the Skargaarden outdoor furniture collection.

Over time, natural teak wood ages, developing a silver grey patina effect. Sunbrella fabric is treated for outdoor use, however we advise storing upholstery indoors when not in use to uphold its chic aesthetic. During extreme adverse weather conditions including hard winters and high winds, we recommend storing your Skargaarden luxury garden furniture indoors.

The Skanor Skargaarden outdoor furniture collection offers compatible rain covers for added peace of mind (sold separately) - contact our customer service team for more information.

Approximate net product weight: 31kg
