Description

Slatted teak outdoor 2 seater sofa with foam-filled cushions and Sunbrella fabric upholstery.

Drawing inspiration from the small town of Skanor in Sweden's southwest peninsula, the Skanor 2 Seater Sofa Teak embraces a timeless Scandic aesthetic.

Sculpted from sustainable A-grade teak wood, this contemporary 2-seater outdoor sofa features a characterful slatted teak construction.

Weatherproof Sunbrella fabric upholstery then completes the aesthetic - available in a choice of refreshing outdoor colourways.

Extend your discerning style outdoors by combining your aesthetic with designer furniture and lounge side tables from the Skanor Skargaarden outdoor furniture collection for a complete outdoor arrangement.

Sunbrella fabric is specifically developed for outdoor use, however we do recommend storing upholstery indoors when not in use to maintain its chic aesthetic.

During extreme adverse weather conditions including high winds and hard winters, we advise storing your luxury garden furniture indoors.

Over time as the natural teak ages, the frame develops a unique silver grey patina effect.

For additional peace of mind, the Skanor Skargaarden outdoor furniture collection offers compatible rain covers for added protection (sold separately) - contact our customer service team for more information.

Approximate net product weight: 38kg
