Description

Slatted teak wood folding lounge chair with curved base.

A true icon of Scandinavian design, the Skargaarden Nozib Lounge Chair Teak was first designed over 28 years ago.

Deducting any unnecessary elements, Nozib is underpinned by Skargaarden's less-is-more aesthetic, where natural teak wood creates a completely unified expression of style.

Sculptural with poetic appeal, the struted seat curves effortlessly to the rear of the chair as the upward curving seat back joins harmoniously in the opposite direction.

Uniquely hand crafted using 88 meticulously assembled pieces of teak, we particularly love how the slatted design allows the botanical beauty of outdoor spaces to effortlessly filter through.

Timelessly stylish, this luxury outdoor lounge chair is perfect for channelling your interior style outdoors as you create the perfect setting for al fresco entertaining and relaxation.

Combine with the accenting Nozib Sun Lounger (sold separately) for a complete Skargaarden outdoor furniture arrangement.

Aesthetic Note: The natural teak develops a unique silver grey patina as it ages over time adding to the natural character of the wood.

Storage : This chair folds neatly away when not in use - we recommend storing indoors using extreme adverse weather conditions especially during hard winters and high winds.

For additional peace of mind, Skargaarden outdoor furniture produce made-to-order rain covers (sold separately) - please contact our customer service team for a pricing quotation.

Approximate net product weight: 8.5kg
