Description

Natural leather ottoman with wooden frame.
Rest your feet in style with the Woud Nakki Ottoman Camo Leather Silk Cognac.
The clean line aesthetic of this ottoman takes inspiration from the techniques and principles of traditional Scandinavian design. With a solid wooden frame, the Nakki ottoman is square in form and has straight legs that are perfectly contrasted with its soft seating. This unique ottoman is upholstered with a natural leather that has a protective coating and offers a comfortable seating experience with its perfectly plump padding that regains its shape after use. For a layered aesthetic of simplistic Scandinavian style, complement with other designer furniture additions from the Houseology Woud collection.
