Material : Lacquered Brass

### Description

Lacquered steel sculptural pendant light with brass finish.  
Light up the beauty of your home with the & Tradition Utzon Pendant Light JU1 Brass.

Fascinated by naval engineering drawings and the shapes of boats and sails, this sculptural pendant light was created by Jorn Utzon, the Danish designer of the Sydney Opera House.

More than a decade on, his childhood fascinations have been re-imagined into the striking appeal of this unique brass lacquered steel pendant light which combines the smoothness of ship sails with the source of light for the first time.

Precision crafted using industrial manufacturing techniques, the metal shades are formed using a combination of metal spinning and deep drawing.

Suspended by a black fabric cable, the design encourages light to taper upwards and downwards for a striking interior illumination.

Install in lounge settings for a touch of metallic modernity and combine with designer furniture from the Houseology And Tradition collection for a striking style symmetry.

Designer: Jorn Utzon

Cable length: 3 metres black fabric cord

Light source: Requires 1x 60W Max E27 (light bulb is not included)
