Description

Synthetic wicker outdoor lounge chair with showerproof seat pad. The Vincent Sheppard Gipsy Lounge Chair is perfect for sharing moments outdoors with the ones you love.

Ideal for creating your own outdoor living room, the chair's retro rival silhouette takes style inspiration from classic Lloyd Loom era chairs. Nestling an ultra-padded weather-resistant seat cushion inside, the chair is complete with distinctive stainless steel legs which bring a geometric quality to the look.

Accent yours with a designer outdoor coffee table from Houseology to transform your patio into a relaxing al fresco retreat inspired by the style of Cuba's Havana terraces.

Includes 1x seat cushion - scatter cushions shown are sold separately via our customer service team.

We advise storing the showerproof cushion seat pad indoors between uses.

This furniture piece is weather and UV resistant - keep your furniture indoors also during extreme adverse weather conditions and hard winters.

Approximate net product weight: 15kg
