### Description

Elegant gold finish metal floor lamp with white fabric shade.

Transform your interior with the boutique hotel elegance of the Houseology Collection Elana Floor Lamp Gold Finish White Shade.

Elevated by a gold coloured metal stand this designer floor lamp provides a subtle contrast to the white fabric shade. The darker metal base gives the lamp a solid footprint, comfortably supporting the parallel lines of the lamp stand.

A bold, contemporary lamp, it styles well with boutique hotel settings and the minimalist base encourages the harmony of your existing interior surroundings to effortlessly filter through.

An in-line switch adds to the practicality of this piece and the neutral shade encourages a diffused lighting output once combined with your own light bulb.

Use yours to add a touch of metallic modernity to minimalist schemes and brighten lost corners of the home.

Requires 1x E27 60W 240V Max light bulb (not included)

Net product weight: 7.3kg

Self assembly required: Yes
