Colour : Gold
Material : PU | Mirrored Glass

Description

Geometric polyurethane designer wall mirror in a choice of metallic finishes.

Transform vacant wall space with the metallic modernity of the Houseology Collection Hex Geometric Wall Mirror Glass Polyurethane. Comprising a series of triangular forms which rise and fall, this striking contemporary mirror features a PU construction in a choice of coated metallic colourways.

Perfect for styling Luxe interior schemes, the sculptural frame surrounds an immaculate circular glass viewing pane which provides a bright and radiant reflection.

A charming alternative to conventional circular wall mirrors, the textured frame adds depth and dimension to otherwise minimalist settings while enhancing the feeling of space and daylight in dimly lit corridors.

Combine yours with accenting elements of the Houseology Collection to really nail the Luxe eclectic aesthetic and transform your space for the new season in style.
