Description

Satin brass finish designer coffee table with white ivory faux shagreen top.

Find a convivial focal point in the Maison 55 by Resource Decor Gwen Coffee Table Faux Shagreen Satin Brass.

A classic, transitional coffee table with a twist, this distinctive designer coffee table is the perfect complement for adding a touch of glamour to contemporary interiors.

With refined proportions and a retro revival design, the neutral linen coloured faux shagreen top is engrained with a subtle sunburst pattern, alluding to roaring 1920's glamour.

An elegant edging and three legged stainless steel base then completes the aesthetic in a satin brass finish.

Use yours to heighten the feeling of sophistication in lounge or lobby areas and discover more nostalgic interior design inspiration in the Maison 55 by Resource Decor collection for a real Luxe twist.
