Description

Recycled plastic slatted outdoor dining chair with gunmetal steel frame. Find an eco-friendly outdoor seating solution in the Mater Ocean Outdoor Dining Chair.

Lightweight and flexible, this modern slatted outdoor dining chair features a sustainable construction made from recycled fishing net hard plastic. Developed for outdoors, the functional slats encourage quick drying after rainfall and the coated metal frame creates a lightweight yet robust structure.

Combine with the matching bistro or rectangular dining table (sold separately) for a coordinated look.

Product features:

- Eco-friendly and biodegradable materials
- Graphic appeal with repeated slats and metal frame
- Made and tested for outdoor use
- Choice of black or concrete green finishes
- Originally designed in 1955 by Joergen & Nanna Ditzel

Awarded: Wallpaper Magazine Design Award 2019

Care: Although this garden dining chair is developed for outdoor use, we do recommend storing indoors during extreme adverse weather conditions and hard winters.
