Description

Recycled plastic slatted outdoor dining table with gunmetal steel frame. Choose the environmentally friendly credentials of the Mater Ocean Rect Outdoor Dining Table.

Representing sustainable and innovative thinking, this contemporary outdoor dining table features a slatted table top formed from recycled fishing net hard plastic.

Practical and stylish, the slatted top encourages quick drying after rainfall as the coated metal frame creates a light yet durable structure.

Combine with the matching dining chairs (sold separately) for a coordinated look.

Product features:

Sustainable and biodegradable materials

Light structure with repeated slats and metal frames

Made and tested for outdoor use

Choice of black or concrete green finishes

Seats 4 guests comfortably

Based on original 1955 design by Joergen & Nanna Ditzel

Also available as a bistro table (sold separately)

Awarded: Wallpaper Magazine Design Award 2019

Care: Although this product is developed for outdoor use, we do recommend storing indoors during extreme adverse weather conditions and hard winters.
